The made to the assistant do not appear to be aracter" (sic-the leaves	ne mining nce of very Demo-50X1-HUM
3.	finds diffic industry is experts (par great possible.  Christian Par Mills:  A mill is bewell as replayed by the meters in the meters in the mill in the meters in the met	of commerce is constant; ult to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the constant of the con	xportable productourse has been diets), but there of "Christian challerents, particular for which miscently arrived. To do for this mill; meter of some 2-	ts are very few. The made to the assistant do not appear to be aracter" (sic—the large in the intermediately in the intermediately are approximately approximate	ne mining nce of s very  Demo- tor, as aci: cely
3.	finds diffic industry is experts (par great possible.  Christian Par Mills:  A mill is bewell as replayed by the meters in the meters in the mill in the meters in the met	of commerce is constant; alt to resolve, since endering maximized, and resticularly Poles and Sovicilities of improvement.  a party of the party of	xportable productourse has been diets), but there of "Christian challerents, particular for which miscently arrived. To for this mill; meter of some 2-arrily being left	ts are very few. The made to the assistant do not appear to be aracter" (sic—the large in the intermediately in the intermediately are approximately approximate	ne mining nce of s very Demo- tor, as ach tely of
3.	finds diffice industry is experts (par great possible.  Christian Par Mills:  A mill is betwell as replayed from their bulk as harbor, and	of commerce is constant; alt to resolve, since endering maximized, and resticularly Poles and Sovicilities of improvement.  a party of the party of	xportable productourse has been diets), but there of "Christian challerents, particular for which miscently arrived. To for this mill; meter of some 2-arrily being left	ts are very few. The made to the assistant do not appear to be aracter" (sic—the large in the intersal laneous machinery, three large tanks (et they are approximately and they are approximately approximat	ne mining nce of s very Demo- tor, as ach tely of
3.	finds diffice industry is experts (par great possible.  Christian Par Mills:  A mill is becaused as replayed their bulk as harbor, and marine parts.  Milltary:  In this connect purres and of Durres and marine parts.	of commerce is constant; ult to resolve, since endering maximized, and recticularly Poles and Sovicilities of improvement.  a party of the provided in purpose and gained many and the second party of the poles and size they are tempored to size they are tempored action, and bave a diameter of the size they are tempored to size they are the size they a	rportable productourse has been liets), but there of "Christian change of the control of the con	ts are very few. The made to the assistant do not appear to be aracter (sic—the halarly in the interplantal in the interplantal for approximation of the pare approximation of the first approximation of the pare approximation o	ne mining nce of severy  Demo- tor,  as aci: cely of sub-50X1-HUI
3.	finds diffice industry is experts (par great possible.  Christian Par Mills:  A mill is becaused as replayed their bulk as harbor, and marine parts.  Milltary:  In this connect purres and of Durres and marine parts.	of commerce is constant; alt to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the received and sovice also received length, and have a diamed size they are temporated.	rportable productourse has been liets), but there of "Christian change of the control of the con	ts are very few. The made to the assistant do not appear to be aracter (sic—the halarly in the interplantal in the interplantal for approximation of the pare approximation of the first approximation of the pare approximation o	ne mining nce of severy  Demo- tor,  as ach cely of sub-50X1-HUI orts 50X1-HUI
3.	finds diffice industry is experts (par great possible.)  Christian Par Mills:  A mill is becaused as replayed their bulk as harbor, and marine parts.  Milltary:  In this connect purres and marines or Second	of commerce is constant; ult to resolve, since endering maximized, and recticularly Poles and Sovicilities of improvement.  a party of the provided in purpose and gained many and the second party of the poles and size they are tempored to size they are tempored action, and bave a diameter of the size they are tempored to size they are the size they a	rportable productourse has been liets), but there of "Christian change of the control of the con	ts are very few. The made to the assistant do not appear to be aracter (sic—the halarly in the interplantal in the interplantal for approximation of the pare approximation of the first approximation of the pare approximation o	ne mining nce of severy  Demo- tor,  as ack cely of sub-50X1-HUI orts 50X1-HUI
3.	finds diffice industry is experts (par great possible.)  Christian Par Mills:  A mill is becaused as replayed their bulk as harbor, and marine parts.  Milltary:  In this connect purres and marines or Second	of commerce is constant; ult to resolve, since endering maximized, and recticularly Poles and Sovicilities of improvement.  a party of the provided in purpose and gained many and the second party of the poles and size they are tempored to size they are tempored action, and bave a diameter of the size they are tempored to size they are the size they a	rportable productourse has been liets), but there of "Christian change of the control of the con	ts are very few. The made to the assistant do not appear to be aracter (sic—the halarly in the interplantal in the interplantal for approximation of the pare approximation of the first approximation of the pare approximation o	ne mining nce of severy  Demo- tor,  as ack cely of sub-50X1-HUI orts 50X1-HUI
3.	finds diffice industry is experts (par great possible.  Christian Par Mills:  A mill is betwell as replayed from their bulk as harbor, and marine parts.  Milltary:  In this connection of Durres and marines or Seports.	of commerce is constant; alt to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the received and size they are temporary and size they are the	xportable productourse has been diets), but there of "Christian chatherents, particular for which miscently arrived. The for this mill; meter of some 2—arily being left they might be much they are might be much they might	ts are very few. The made to the assistant do not appear to be aracter (sic—the later) in the interval laneous machinery, have large tanks (et they are approximal) meters. Because of floating in Durres istaken for pocket and no pocket in either of these	ne mining nce of severy  Demo- tor,  as ack cely of sub-50X1-HUI orts 50X1-HUI
3.	finds diffice industry is experts (par great possible.  Christian Par Mills:  A mill is betwell as replayed from their bulk as harbor, and marine parts.  Milltary:  In this connection of Durres and marines or Seports.	of commerce is constant; alt to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the received and size they are temporary and size they are the	rportable productourse has been liets), but there of "Christian character of which miscently arrived. To d for this mill; meter of some 2-arily being left they might be might be might be might been received.	ts are very few. The made to the assistant do not appear to be aracter (sic—the later) in the interval laneous machinery, have large tanks (et they are approximal) meters. Because of floating in Durres istaken for pocket and no pocket in either of these	ne mining nce of severy  Demo- tor,  as ach cely of sub-50X1-HUI orts 50X1-HUI
3. 4.	finds diffice industry is experts (par great possible.)  Christian Par Mills:  A mill is because well as replayed weighing 30 12 meters in their bulk as harbor, and marine parts.  Military:  In this connect burness or Seports.	of commerce is constant; alt to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the party of	xportable productourse has been diets), but there of "Christian chatherents, particular for which miscently arrived. The for this mill; meter of some 2—arily being left they might be much they are might be much they might	ts are very few. The made to the assistant do not appear to be aracter (sic—the later) in the interval laneous machinery, have large tanks (et they are approximal) meters. Because of floating in Durres istaken for pocket and no pocket in either of these	ne mining nce of a very  Demo- as ach bely of  sub-50X1-HUI  orts 50X1-HUI
3. 4.	finds diffice industry is experts (par great possible.)  Christian Par Mills:  A mill is because weighing 30 12 meters in their bulk as harbor, and marine parts.  Military:  In this connect Durres and marines or Seports.	of commerce is constant; alt to resolve, since en being maximized, and resticularly Poles and Sovicilities of improvement.  a party of the resolve of the re	xportable productourse has been diets), but there of "Christian chatherents, particular for which miscently arrived. The for this mill; meter of some 2—arily being left they might be much they are might be much they might	ts are very few. The made to the assistant do not appear to be aracter (sic—the later) in the interval laneous machinery, have large tanks (et they are approximal) meters. Because of floating in Durres istaken for pocket and no pocket in either of these	ne mining nce of severy  Demo- tor,  as ach cely of sub-50X1-HUI orts 50X1-HUI
3. 4.	finds diffice industry is experts (par great possible.)  Christian Par Mills:  A mill is betwell as replayed weighing 30-12 meters in their bulk at harbor, and marine parts.  Military:  In this connect Durres and marines or Seports.	of commerce is constant; alt to resolve, since en being maximized, and recticularly Poles and Sovicilities of improvement.  a party of the party of	xportable productourse has been diets), but there of "Christian chatherents, particular for which miscently arrived. The for this mill; meter of some 2—arily being left they might be much they are might be much they might	ts are very few. The made to the assistant do not appear to be aracter (sic—the later) in the interval laneous machinery, have large tanks (et they are approximal) meters. Because of floating in Durres istaken for pocket and no pocket in either of these	ne mining nce of severy  Demo- tor,  as ach cely of sub-50X1-HUI orts 50X1-HUI

50X1-HUM

\_2\_

6. Anti-tank fortifications, emplaced in mined fields, are reportedly being constructed along the Greek and Yugoslav borders; 50X1-HUM the civilian population has been evacuated over several kilometers along the border from Leskoviki to Golloborde to clear the way for military maneuvers.

## Railroad:

7. The second branch of the railroad between Durres and Elbasan is presently under repair, because the earth collapsed under the tracks; certain changes in the original course of the tracks were necessary.
